EARLY LEARNING
Childcare

Enrolments now open!

At Brighton Early Learning Childcare, we provide exceptional care in a nurturing, playful, educational and inclusive environment.

Our qualified teachers and skilled learning facilitators are committed to giving your child the opportunity to learn social and academic skills that build a strong foundation for their future education. We also focus on wellbeing, happiness and confidence, while forging quality relationships with children and their families.

With a modern, purpose-built centre, our indoor and outdoor spaces are designed to be safe, inspiring and stimulating.

Brighton Early Learning Childcare - part of AEIOU Foundation

As well as proudly operating our Brighton Early Learning Childcare centre, AEIOU Foundation is recognised as a leader in early intervention for children with autism. Our Brighton Centre has a specialised early intervention unit on site, providing education and therapy to children aged two to six.

While the autism early intervention program is separate from our Early Learning Childcare centre, there are opportunities for inclusion.

Our early learning teachers and facilitators have access to training and support from our on-site behaviour therapists, occupational therapists, speech and language pathologists, teachers and learning facilities.
