

# Preparing for the NDIS

## Helping you achieve successful outcomes for your child and family

The National Disability Insurance Scheme (NDIS) has been described as a generational change to the way Australia supports people with a disability. At AEIOU Foundation, we recognise the impact this will have on you and your family. The Queensland roll out is underway and on 1 October 2017 families living in the Bundaberg region will start to transition to this new Scheme.

### These FREE workshops will guide you through the NDIS process

Our series of four half-hour workshops is designed to take the stress out of this transition period, and help you achieve the best outcome for your child and your family.
